

Technical overview

JURA standards

Variable brewing unit	6 to 10 g
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Powder recognition for second ground coffee type	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma ^{G3} grinder	■
CLARIS filter cartridge	■
Thermoblock heating system	■
High-performance pump	15 bar
Intelligent preheating	■
Integrated rinsing, cleaning and Descaling	■
Integrated milk system rinsing and cleaning	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■

Specific advantage

One-Touch function	■
Pulse Extraction Process (P.E.P.®)	■
TFT colour display	■
Recognition for second, ground coffee	■
Monitored aroma preservation cover	■
White cup illumination	■
Amber cup illumination	■
Supplied with container for milk system cleaning	■

The benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimise extraction time to guarantee professional quality, barista-style coffee
- Aroma^{G3} grinder now twice as fast for fully preserved aroma
- Intuitive operation via self-explanatory touchscreen display
- 12 selectable specialities, now including latte macchiato doppio and cappuccino doppio

Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	8 levels
Coffee strength adjustable for each preparation	■
Programmable switch-off time	■

In figures

Height-adjustable dual spout (milk / coffee)	55 – 138 mm
Height-adjustable hot-water spout	55 – 138 mm
Water tank fill volume	1.1 L
Coffee grounds container (servings)	approx. 9
Bean container with aroma cover	125 g
Cable length	approx. 1.1 m
Voltage	230 V, 50/60 Hz
Power	1,450 W
Energy consumption with E.S.M.®	4.3 Wh
Weight	10.9 kg
Dimensions (W × H × D)	23.9 × 32.3 × 44.5 cm
Checks	CB
Article Number / Colour	15118 / Alu

JURA A9 P.E.P.®: Pulse extraction process

JURA A9

Top innovation P.E.P.[®]: Pulse extraction process

The quickest way to enjoying a perfect cup of coffee is via the colour screen with touch technology. The modern, self-explanatory touchscreen display makes operation intuitive. Enjoy the perfect cup of your favourite specialities, prepared in an instant, thanks to the Aroma^{G3} grinder and fine foam technology. Visually, the compact machine cannot fail to impress thanks to its clean lines, elegant materials and superior craftsmanship.

Top innovation: P.E.P.[®] for espresso and ristretto of outstanding barista quality

JURA has perfected the complete brewing process for short speciality coffees. That's why the A9 prepares these beverages to the high standard you would expect in a coffee bar. The variable brewing unit has a capacity of 6 to 10 grams and ensures the ideal brewing conditions at all times. The Pulse Extraction Process (P.E.P.[®]) developed by JURA optimise the extraction time. To make a ristretto or espresso, it forces the hot water through the ground coffee at short intervals. This process allows the flavours of the coffee to fully develop. With eight intensity levels, coffee lovers can customise their coffee just the way they like it.

Aroma^{G3} grinder now twice as fast for fully preserved aroma

By perfecting the cutting angle inside the grinding cone, the JURA engineers have managed to increase efficiency significantly. As a result, the perfect aroma can now be achieved in all its natural fullness in half the grinding time. So now coffee lovers can enjoy pure and perfect coffee indulgence with less preparation time.

Intuitive operation via self-explanatory touchscreen display

Your four favourite specialities can be saved on the start screen and prepared with a gentle touch. The user-friendly operating concept extends to maintenance too. Just one touch and the rinsing, cleaning and descaling ensure TÜV - certified hygiene.

12 selectable specialities, including latte macchiato doppio and cappuccino doppio

The A9 impressively prepares classic drinks as well as two exquisite speciality coffees: the latte macchiato doppio and cappuccino doppio tempt with maximum coffee strength, crowned with fine milk foam of irresistible quality. Thanks to One-Touch technology and the height-adjustable dual spout, which can be set to 55 - 138 mm, they are even prepared without you having to move the glass.
